Shane described what is happening with the water lines. Air is getting into the water lines.

Clarke Well & Equipment will invoice us, but still haven't pin pointed the exact problem. Larned has loaned us a pump until we find out. If pump is bad the cost is just under \$2000 from Johnson Electric.

Deb Bader **Motion**: Pay invoice to Johnson Electric for a Chlorinator Pump if needed. Seconded by Phyllis Agee, carried 3/0.

Deb Bader made a **Motion** to adjourn, seconded by Phyllis Agee. Carried 3/0.
